Part 1: Development Assistance in Combined Sources Budget 2019

As envisaged in Article 23.4 (b) of the Budget and Financial Management Law of 15 October 2009, the General Budget of the State of Timor-Leste must indicate funding by Development Partners (DPs). The Combined Sources Budget (CSB), which is the combination of general state budget and external assistance provided by DPs, is an important concept in Timor-Leste, as external assistance has substantially contributed to the development of Timor-Leste since its independence. Although the relative size of external assistance as a percentage has decreased as a result of the rapid expansion of the state budget in recent years, external assistance has consistently exceeded more than US\$150 million per year for the past 12 years.

External assistance indicated in the Budget Book No. 5 is an integral part of the CSB. In 2019, development partners are preparing to provide a total of US\$222.6 million, of which US\$162.6 million will be provided as grants and US\$60 million as concessional loans. Although the “External Assistance” concept includes both concessional loan and non-lending assistance, this Budget Book specifically focuses on non-lending (US\$162.6 million). The information on loan assistance is presented separately and explored in depth in the Infrastructure Fund in the Budget Book No. 3-A.

The information on non-lending assistance in this Budget Book contains the external assistance to be provided by multilateral and bilateral donors to the Democratic Republic of Timor-Leste (RDTL). It includes the external assistance projects executed in direct collaboration with Government Ministries, as well as through Non-Governmental Organizations (NGOs). In Chapter 5, all the external assistance projects to Timor-Leste are presented in accordance with the RDTL beneficiary institutions. It should be noted that the information presented in this Budget Book is derived from the Aid Transparency Portal (ATP), the government database to which DPs are responsible for providing data on all of their contributions, and through surveys provided to development partners. In order to assist the Government in preparing the General Budget of the State for 2018 and for more general aid coordination and effectiveness purposes, DPs are requested by the Ministry of Finance (MoF), GoTL, to update the ATP on a quarterly basis. All DP assistance data presented in this Budget Book was generated from a data set produced on the 21 September 2018 unless indicated otherwise.

Part 2: National Development Plans

2.1 Strategic Development Plan 2011-2030

Timor-Leste’s Strategic Development Plan 2011-2030 (SDP) was released in July 2011 and articulates Timor-Leste’s vision of development for the next two decades. It is based on “Timor-Leste 2020: Our Nation Our Future,” and is aligned with the United Nations’ Millennium Development Goals (MDG). The SDP is an integrated package of strategic policies, which aims to transform Timor-Leste from a low income to upper middle-income country, with a healthy, well-educated and safe population by 2030.

The SDP covers four pillars: (1) Social Capital, (2) Infrastructure Development, (3) Economic Development, and (4) Institutional Frameworks. Each pillar sets out the areas and programs that need to be completed to achieve the collective vision of the SDP.

The Social Capital pillar focuses on building a healthy and well-educated society to address the social needs of Timor-Leste's people and promote human development. It covers five main areas: Education and Training, Health, Social Inclusion, Environment, and Culture and Heritage.

The Infrastructure Development pillar is to ensure that the nation has the core infrastructure needed to build a productive, sustainable, growing and connected nation. It covers six areas: Roads and Bridges, Water and Sanitation, Electricity, Seaports, Airports, and Telecommunications.

The Economic Development pillar aims to achieve a prosperous, modern economy and jobs for Timor-Leste's people. It covers five areas: Rural Development, Agriculture, Petroleum, Tourism, and Private Sector Investment.

The Institutional Framework pillar will help to provide an effective framework upon which the three other aspects of Timor-Leste's development will be built. It covers six areas: Security, Defence, Foreign Affairs, Justice, Public Sector Management and Good Governance, Strategic Planning and Investment/Economic Policy and Investment Agency.

With the signing of the Dili Development Pact at the 2011 Timor-Leste and Development Partners Meeting (TLDPM), the Government of Timor-Leste and its Development Partners came to an agreement that the SDP will be the overarching framework for all programs and projects to align with in the future.

2.2 Program of the VIII Constitutional Government

The Eighth Constitutional Government was sworn in on 22 June 2018. The Government Program summarizes the main public policies to be adopted to reinforce and optimize the sectors of governance and their resources, shortening the path to transform the 2030 vision into reality and is based on five key sectors for the future of the country:

- In the sector of **social capital development**, the program presents a package of measures to maximize its potential, promoting inclusion, empowerment, qualification and health;
- In the sector of **infrastructure development**, considered crucial for economic and social development, the Government intends to implement a quality infrastructural network, guaranteeing a good cost-benefit ratio and thus sustain productivity, job creation and development of the private sector;
- In the sector of **economic development**, the program presents measures for its modernization and diversification, boosting the productive sectors around three essential industries - agriculture, tourism and oil - with measures that stimulate creativity, innovation, entrepreneurship, enabling increased income opportunities, improved productivity, the ability to generate wealth and the creation of new markets;
- In the area of **governance consolidation**, the Government proposes to continue investing in strategic planning for a modern and diversified economy, with the goal of creating 60,000 new jobs per year, reducing poverty by 10% and average growth of the economy above 7%, increasing the contribution of the private and productive sectors, and making feasible the fiscal sustainability.
- In the area of **good governance and anti-corruption**, the program proposes to implement mechanisms for evaluation, performance and promotion of the principles of transparency, accountability, integrity and leadership, in order to increase confidence in governance and increase public sector competence and efficiency.

2.3 The New Deal for Engagement in Fragile States

The New Deal was presented at the 4th High Level Forum on Aid Effectiveness in Busan, Korea in 2011. Since then, more than 44 countries and organizations have endorsed the New Deal, including Timor-Leste. The New Deal guides development engagement in fragile countries through the promotion of country-owned and country-led pathways towards peace and resilience.

The New Deal was designed to accelerate the effectiveness of international engagement. It represents the first aid architecture in history for conflict-affected states and features three interconnected pillars; five Peacebuilding and Statebuilding goals (PSGs); and two guiding frameworks for implementation: FOCUS, a new way of engaging, and TRUST, a set of commitments by donors and recipient countries alike.

Peacebuilding and Statebuilding Goals (PSGs)

1. Inclusive Politics
2. Security
3. Justice
4. Economic Foundations
5. Revenue and Services

FOCUS

- F: Fragility Assessment
- O: One Vision, One Plan
- C: Compact
- U: Use PSGs to Monitor Progress
- S: Support Political Dialogue and Leadership

TRUST

- T: Transparency
- R: Risk Sharing
- U: Use and Strengthen Country Systems
- S: Strengthen Capacities
- T: Timely and Predictable Aid

The New Deal framework will guide country-led planning, but each process will ultimately be defined by the unique context and challenges within an individual country. Each country -- local and national government actors together with Development Partners, civil society and the private sector -- will develop its own understanding of what the New Deal means, and set its own plans, targets and indicators.

2.3.1 Aid Management Effectiveness Policy

The Aid Management Effectiveness Policy (AMEP) – approved in 2017 -recognizes the importance of development assistance in supporting the nation’s vision for development. Effective development assistance is based on sound working relationships between the Government and the Development Partners. The Government of Timor-Leste continuously seeks to ensure improvement in aid coordination and harmonization through collaboration, shared planning and objectives, and transparency. The AMEP provides guidelines for planning, mobilization, implementation and monitoring of development assistance to ensure aid is aligned with government plans and priorities, and effective working relationships with development partners are maintained. Simultaneously, through the AMEP, development partners are encouraged to improve their alignment of

assistance to government priorities, improve reporting and transparency of development assistance, and improve mechanisms for monitoring and achieving results, including innovative forms of aid that eliminate duplication and deliver aid more effectively.

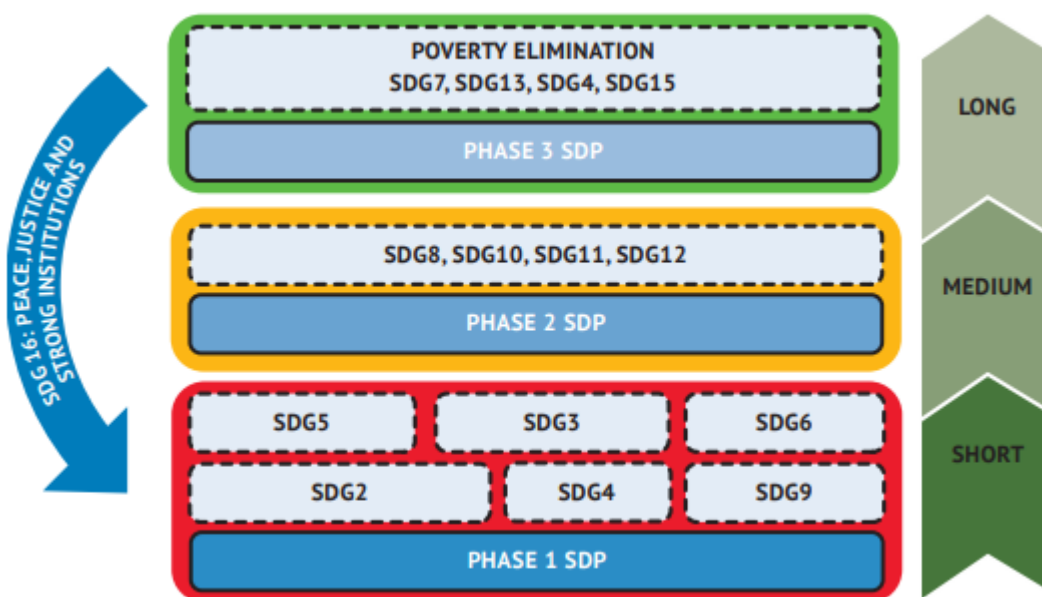

The implementation of AMEP is expected to result in a gradual decrease in off-budget project support; improve the reliability of development resources and increase the impact and efficiency of how development assistance is delivered. The overarching goal of the AMEP is based on international agreements to which Timor-Leste and Development Partners have subscribed to; including the Paris Declaration on Aid Effectiveness, the Accra Agenda for Action, and the OECD DAC Principles for Good International Engagement in Fragile States, the Addis Ababa Action Agenda and the New Deal.

2.4 Harmonization of the Sustainable Development Goals and the Strategic Development Plan

Timor-Leste is a Global Champion for the Sustainable Development Goals (SDGs). The Government of Timor-Leste adopted the 2030 Agenda and Sustainable Development Goals two days before they were formally adopted in the United Nations at the General Assembly on 25 September 2015. On the global stage, the Government of Timor-Leste worked with the g7+ group of countries to successfully advocate for a Goal 16 on peace, justice and effective institutions.

In 2017, the Government of Timor-Leste started a process to develop a national roadmap to achieve the SDGs. The SDG Roadmap of Timor-Leste is based on the Strategic Development Plan 2011-2030 outlined above. The figure below displays how links were established between the SDGs and the SDPs. Since 2015, the Government of Timor-Leste has been focusing in the short term on achieving the SDG Goal 2 ‘Nutrition and Food Security’, Goal 3 ‘Health’, Goal 4 ‘Education’, Goal 6 ‘Water and Sanitation’ and Goal 9 ‘Infrastructure’.

Figure 2.4.1 Timor-Leste SDG Roadmap

Part 3: Improved Development Partnership

3.1 Development Partnership Management Unit

The DPMU is situated directly under the supervision of the Minister of Finance. The main responsibility of DPMU is to ensure the effective use of the external assistance provided by DPs to Timor-Leste, so as to guarantee coordination and harmonization in accordance with the development priorities set by the Government.

3.2 Aid Transparency Portal (ATP)

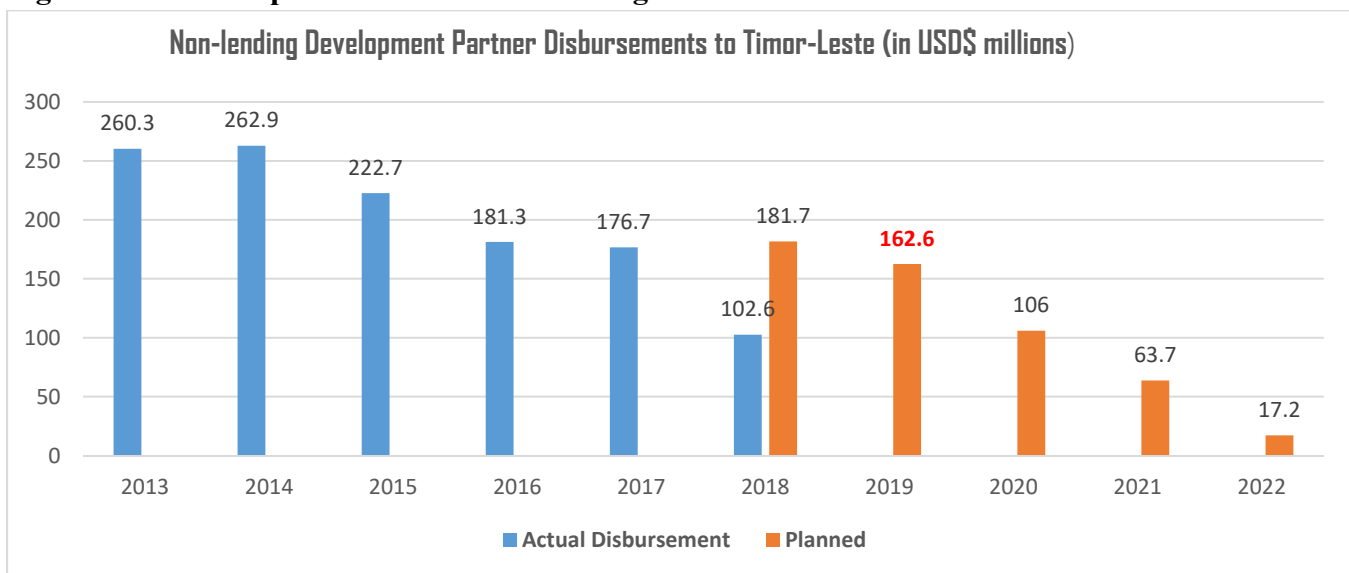

The ATP is a public database that is populated by Development Partners to track assistance in Timor-Leste. The system allows all stakeholders, including government ministries and Development Partners to better understand the level of Official Development Assistance to Timor-Leste. Equipped with the ATP, the DPMU is able to further contribute to preparing quality State Budgets. A vast majority of the data published in this budget book is directly extracted from the ATP. All information in the ATP is directly entered into the system by the Development Partners themselves. The website can be accessed at www.aidtransparency.gov.tl.

Part 4: Trend of Development Assistance to Timor-Leste

4.1 General trend

The amount of ODA to Timor-Leste exceeded US\$200 million from 2011 to 2015 but has experienced a significant downward trend in non-lending beginning in 2015 that has led to the lowest levels of non-lending assistance in Timor-Leste, totalling US\$176.6 million in 2017. ODA as a percentage of the Combined Source Budget has become smaller, decreasing from 23.5% in 2010 to 10% in 2019 on a planned basis. In 2019, a planned total of US\$222.6 million will be provided to Timor-Leste. This includes US\$162.6 million in non-lending funds and US\$60.0 million in loans. The graph below highlights trends in non-lending support from development partners.

Figure 4.1.1 Development Partner Non-lending Disbursements 2013-2022

Source: 2013-2017 and 2018 planned disbursement data was collected from previous budget books; 2018 actual and 2019-2022 was drawn from the Aid Transparency Portal as of 21 September, 2018.

Forecasted funding more than one year in advance is typically unreliable for several reasons, most notably due to the fact that many donors operate on single year budgets. The dramatic decline in funding shown in the future years above is based on data collected at the project level, thus it does not include donor’s funding that has been secured yet not committed towards specific projects. For example, the Millennium Challenge Corporation’s future contributions are not included in these figures even though they are likely to contribute significantly towards the donor funding landscape.

4.2 Development partners in Timor-Leste

In 2019 Timor-Leste is scheduled to receive funding from ten bilateral sources and 14 multilateral sources. The five donor groups that have reported the highest levels of planned funding in 2019 are as follows: Government of Australia (\$50.3 million; 31 percent of total), the EU (\$22.7 million; 14 percent of total), Portugal including funding from Camoes (\$16.5 million; 10 percent of total), Japan including Government of Japan and JICA (\$15.4 million; 10 percent of total), and the United States of America (\$13.3 million; 8 percent of total). Please refer to Part 6 for a detailed summary of donor and executing agency disbursements. Figure 4.2.2 demonstrates that often times donor funds are not implemented directly by their own agencies.

Figure 4.2.1 2019 % Planned Non-lending Disbursements by Donor Group

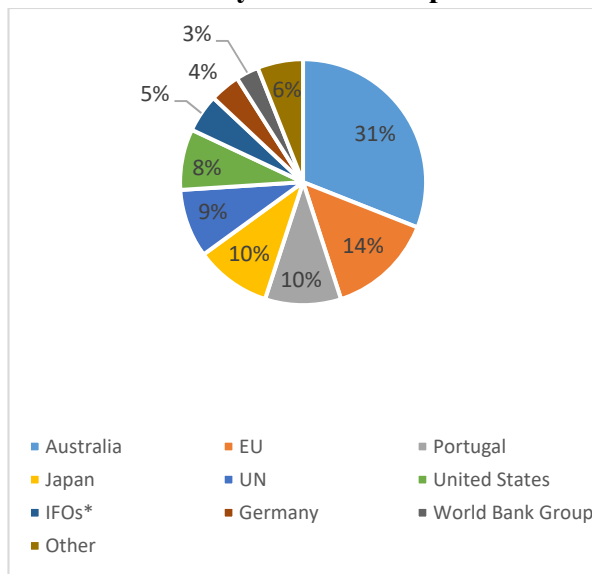

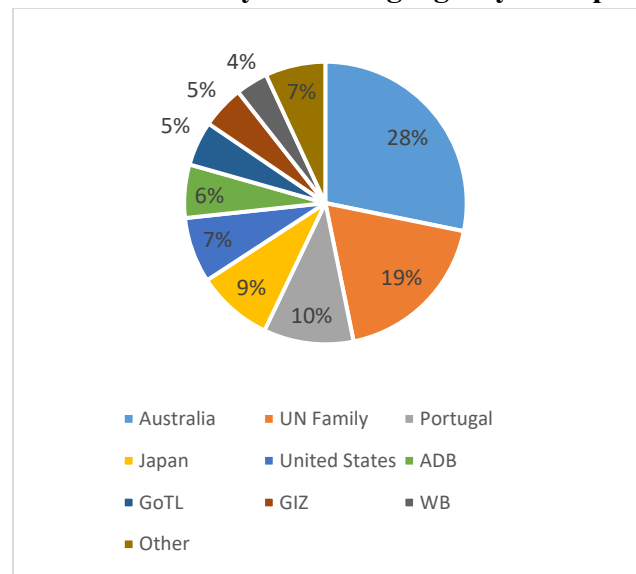

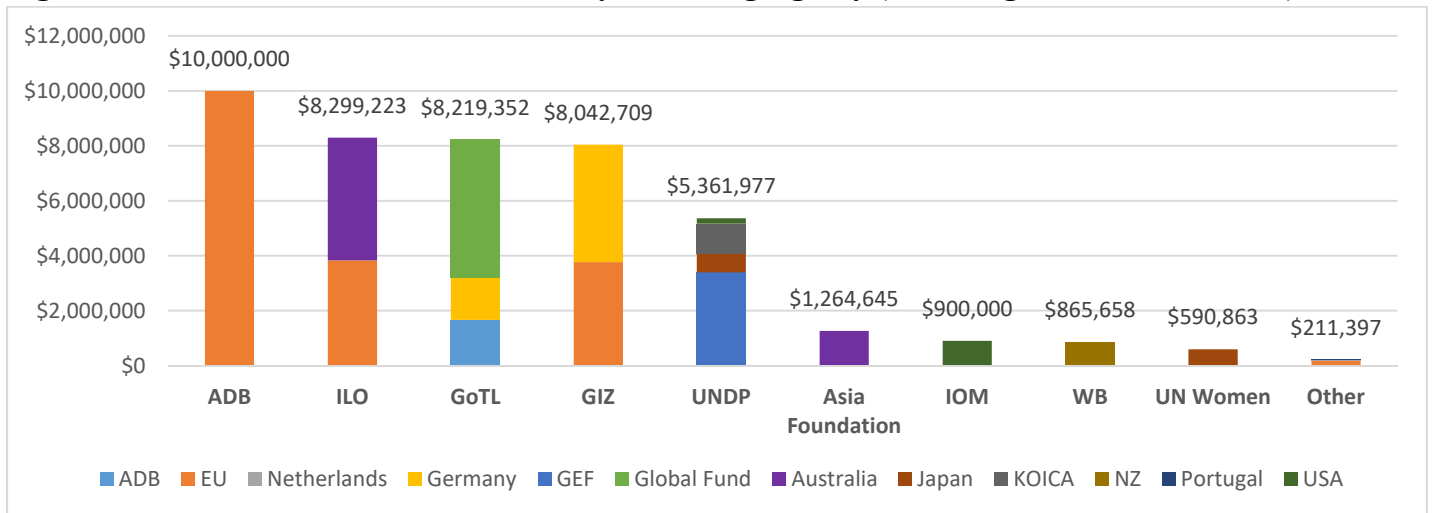

Figure 4.2.2 2019 % Planned Non-lending Disbursements by Executing Agency Group

*International Financing Organizations, these are vertical funds provided by organizations like the Global Environmental Facility. For a detailed list of funders and executing agencies, please refer to Part 6.

Meanwhile Figure 4.2.3 below highlights resources that have been provided to other agencies donor and/or government agencies to execute the project. The columns represent the agencies receiving support, while the colors correspond to the sources of funding.

Figure 4.2.3 2019 Planned Disbursements by Executing Agency (excluding self-executed funds)

4.3 Alignment to the Strategic Development Plan

As mentioned above, the SDP 2011-2030 and the Government Program are the overarching frameworks for all programs and projects to align with. The planned disbursement of DPs to each pillar and sub-pillar of the SDP in 2019 is indicated in the table below. It should be noted that the table simply shows the amount of external assistance in each SDP category; it does not mean that all projects are strictly aligned to only one sub-pillar.

Among the four pillars, *Social Capital* will be the largest recipient of aid, approximately \$79.9 million, or 49% of total planned disbursements in 2019. Next year will see a continuation of Development Partner support to the Health and Education sub-pillars, accounting for a combined total of over 39 percent of all planned disbursements in the year. The third largest SDP sub-pillar supported will be Agriculture. All three of these areas are aligned with the first phase of the SDP/SDG Roadmap.

Table 1: 2019 Planned Disbursements and Number of DPs in accordance with the pillars/sub-pillars of the Strategic Development Plan 2011-2030(non-lending only)

Strategic Development Plan 2011-2030		2019 Planned Disbursements

SDP Undefined	3	2	1	0.91	0.6	
Total				162.6	100	

4.4 Aid Type

This year, the DPMU took additional steps to gather more useful information for and from our stakeholders. The tables presented in the following sections categorizes disbursements in the form of grants, technical assistance and unspecified. Grants were defined as *products and/or services necessary for the construction of facilities, provision of equipment; program support; or budget support*. Technical Assistance was defined as *funds to provide for education and training; payments to cover consultants, advisors or teachers, include the cost of associated equipment*. Finally, unspecified is included in cases where development partners did not provide to DPMU with the requested information.

Development Partners were asked to estimate the percentage of funds that were used for grants and TA for each project. Based on the number provided, the DPMU produced the calculations included below. We hope to continue to improve upon the quality and usefulness of the information generated in our reports.

According to the data collected, donor’s assistance directly supporting Government agencies will account for 93% of all donor assistance in 2019. 36.2% of that assistance will be funding technical assistance activities, 44.1% grant activities, and the remaining 12.7% of funds were not identified by donors. A detailed list of these activities can be found below.

Table 2: Disbursements by type and support to Gov.

	Government	%	Non-gov	%
Grant	\$71.7	44.1	\$8.5	5.2
TA	\$58.8	36.2	\$2.7	1.7
No info provided	\$20.7	12.7	\$0.2	0.1
Total	\$151.2	93	\$11.4	7

Table 3: Number of projects by type

# of projects exclusively TA	49
# of projects exclusively Grants	35
# of projects with TA and Grants	16
# of projects no info provided	19
Total # of projects	119

According to the information collected, a vast majority of donor assistance is in one way or another working with Government institutions. On the surface this is a positive sign. However, it also highlights the need to establish stricter definitions to fully understand the nature of the working relationships between Government and development partners.

Part 5: Development Assistance Projects to Timor-Leste in 2019

5.1 External Assistance by RDTL Beneficiary Institutions (non-lending)

The following tables provide a more detailed snapshot of planned Development Partner support in 2019. Each table shows the projects that DPs will be implementing that either work directly with the Government or whose outcomes and results benefit that Ministry. These tables provide Government beneficiary institutions with details necessary to create budgets that are more informed by the contributions of development partners. Please note that only Ministries that are scheduled to receive support from 2019-2022 were included. Actual disbursements for 2018 were not included below.

Table 4: External Assistance by RDTL Beneficiary Institution (Planned Disbursements US\$ thousands)

Government Agency	2019 Plan Total	2019 Plan (Grant)	2019 Plan (TA)	2019 Plan (Unsp.)	2020 Plan	2021 Plan	2022 Plan

5.1.01 Ministry of Health

The Ministry of Health is scheduled to benefit from a total of US\$ 27 million in 2019, the largest amount of development assistance to line ministry recipient compared to other line ministries. 29% (or US\$ 7.8 million in absolute terms) of the total planned funds for the Ministry of Health in 2019 are from the Australian Government for the “Australia – Timor-Leste Partnership for Human Development” project. Fund disbursements to the Ministry of Health in the form of grants account for 59% of the total planned 2019, (or US\$ 16 million in absolute terms), while 31.0% of total 2019 planned disbursement is technical assistance (US\$ 8.3 million).

Partnership for Sustainable Agroforestry Project (PSAF)/ GIZ with EU funds	The project aims to contribute to a peaceful, inclusive and sustainable development in Timor-Leste through improved rural access, the creation of employment, economic and domestic revenue opportunities and a durable reduction in food insecurity and undernutrition in rural areas. The project has two components, the component 1 is about Sustainable Agroforestry implemented by GIZ. This component is financed by the European Union (13 million Euros).	The project works with the MAF, Directorate General of Forestry, Coffee and Industrial Plants, National Directorate of Forestry and Watershed Management for implementing a Sustainable Agroforestry in Timor-Leste. MAF Directorates at Regional and Municipal Level are also direct partners in the implementation of the project. One of the key fields of intervention in this project is on the improvement of Institutional and Organizational Framework for Agroforestry	The project is at the inception phase - first year: Thus far, inception phase workshops have been conducted at National, Regional and Municipality (Baucau, Manatuto, Viqueque and Lautem) level, to introduce the project to all stakeholders as well as selecting target sucos for implementation and discussion on potential value chain to be supported by the project	4,706	0	0	4,706	4,215	4,215	1,897
Timor-Leste: Sustainable Agriculture Productivity	SAPIP will be implemented in four watersheds, located in the municipalities of Raumoco watershed (Lautem), Be Lulic watershed (Ainaro), North Loes watershed (Liquica) and Tono watershed (Oecusse). SAPIP is	Direct support to the Ministry who directly implements the program and manages funds allocation.	The project started at end of year 2016, and in year 2017 the project started with establishment of Project Management Unit (in Dili) and Project Implementation Unit (PIUs) in 4 locations (Raumoco/Lautem, Loes/Liquica, Tono/Oecusse and	4,493	4,493	-	-	4,493	4,493	4,493

Improvement Project (SAPIP)/ World Bank	structured around 5 components: Integrated watershed/sub-watershed agriculture development planning Smallholder organization, advisory support and training Sustainable watershed/sub-watershed management and support to farmer groups Strengthening MAF's services,		Belulik/Ainaro). The project started with operations of the PMU, recruitment of the project staff, launching of the project in 4 locations, and also establishment of the Farmers groups. The organization that will implement MAF M&E has been contracted (FAO).Implementation is underway and the Ministry of Agriculture and Fisheries has established a project management unit. The selection process of NGOs to support the implementation of project activities is underway. The formation of a new government in June is expected to lead to accelerated project implementation during the coming months.							
USAID's Avansa Agrikultura Project/ USAID	Avansa Agrikultura (advance agriculture) will contribute to acceleration of sustainable and inclusive economic growth in the agriculture sector in Timor-Leste. This project is part of the USAID efforts to assist Timor-Leste to become more prosperous, healthy and democratic.	The project helped establish the Horticulture Working Group. The working group contributes to efforts of the Ministry of Agriculture and Fisheries (MAF) in formulating relevant policies and laws affecting agriculture and forestry sectors such as, supporting the drafting of a Decree Law for Pesticides.	<ul style="list-style-type: none"> Annual farmer incomes increased from \$250 to \$1,620 in targeted localities. Farmers have increased savings by 178 percent. More than 46 percent of savings and loan club members are female, and they have doubled their weekly savings rates. Stakeholders have invested \$2.2 million back into agriculture. California Frigo strawberry plants were distributed in Aileu, Ainaro, and Ermera. Some of the farmer groups' incomes have increased by nearly 320 percent from \$1,200 to \$5,000 since the activity began. 	3,969	-	-	3,969	299	-	-
TOMAK-Farming for Prosperity (Timor-Leste)/ Australia	TOMAK is Australia's flagship rural development program in Timor-Leste, building on previous programming that has established a deep engagement with rural communities. The Program is currently working in 66 suco in three municipalities (Baucau, Bobonaro and Viqueque) with a primary focus on improving household food security and nutrition.	Ministry of Agriculture and Fisheries (MAF): (i) training of AEWs to strengthen capacity related to TOMAK's four target value chains (mung beans, peanuts, red rice, and onions) and to strengthen basic agribusiness skills; (ii) development of improved extension materials; (iii) development and roll-out of a nutrition-sensitive agriculture training curriculum; (iv) support to improve Newcastle Disease vaccination campaign.	Selected key achievements to date include: (i) development of a nutrition sensitive agriculture training curriculum and roll-out to 170 MAF agriculture extension workers (AEWs) and implementing partner staff; (ii) partnership with international and national NGOs to support more diversified production of nutritious food in 66 suco, and to influence nutrition-related behavior of target communities; (iii) development of improved Good Agricultural Practice manuals for mung beans, peanuts red rice, maize and onions, and subsequent training of 61 AEWs in improved production practices.	2,643	1,322	1,322	-	2,670	1,030	-

communities and their livelihoods/ UNDP	Issues of coastal areas are complex and cross-sectoral. The project therefore employs an integrated approach, while tailoring activities to address the specific needs, challenges and priorities of the GoTL.	of nature-based approaches to coastal protection	incentivize mangrove rehabilitation and protection; Integrated approaches to coastal adaptation adopted to contribute to protection of coastal populations and productive lands.							
Coffee and Cocoa Development in Timor Leste/ New Zealand	NCBA/CCT will work with famers to improve the production and quality of coffee and cocoa in Timor-Leste	This activity is to support the Ministry of Agriculture on the rehabilitation of coffee and cocoa.	Project achievements;• 258,141 Cocoa seedlings produced in farmer nursery • 169,679 Coffee seedlings produced in farmer nursery • 295,885 Cocoa seedlings distributed to new Cocoa farmer • 25 coffee and cocoa demo farm established• 608 hectares of Coffee plantation rehabilitated.	1,655	1,655	-	-	-	-	-
The Project for Community-Based Sustainable Natural Resource Management Phase II/ JICA	The latest assessment revealed that, in Timor-Leste, about 13,000 ha of forests had disappeared between 2003 and 2012 and about 171,000 ha of dense forests had been degraded to sparse forests for the same period. The same assessment indicates that the total forest coverage became about 59 % of the whole country (about 869,000 ha) in 2012. Deforestation has further caused soil erosion, land slide and flash floods, which eventually affected the lives of people residing within river basins.	JICA project team is implementing the project while developing CBNRM capacity of related actors including MAF and working with MAF to develop a road map for CBNRM.	CBNRM Mechanism has been expanding to other villages in the Project sites.	1,091	-	1,091	-	1,025	-	-
The Project for Increasing Farmers Households' Income through Strengthening Domestic Rice Production in Timor-Leste/JICA	The project is aiming at improvement of 1) irrigation management, 2) rice productivity, 3) market access for farmers, 4) purchasing system and storage management of MCIA	MCIE: JICA project team is implementing project directly while building capacity of related actors including MAF and MCI staff. No funds are provided to the ministries MoAG:--	Agricultural techniques (chicken farming, compost, rice cultivation) were improved in the target area. Waste management system in Viqueque was improved. Environmental awareness of the local people in the target area was enhanced.	887	-	887	-	862	291	-

Australia - Timor-Leste Partnership for Human Development/ Australia	PHD is a 5+5 year investment to support the Government of Timor-Leste to attain target SDGs, and in particular focus on achieving better human development outcomes. The program works in partnership with relevant ministries and other implementing partners including civil society organizations to improve access to better health and education, water and sanitation, particularly for girls and people with a disability. PHD works with other partners to implement their activities.	Engagement with Ministry of Education, Ministry of Health, Ministry of Public Works, Ministry of Social Solidarity, KONSSANTIL PHD provides technical assistance to the Ministry of Education to help them implement their activities (i.e. distribution of curriculum materials, development of Inspectors' manual) and KONSSANTIL.	In health, PHD supports the Liga Inan program, training for junior doctors and family planning services, which are accessed 14,000 times each year. In education, PHD works with the Ministry of Education, Youth and Sport to improve teaching through the Professional Learning and Mentoring Program (PLMP), including supporting Eskola.tl technology. PLMP is operating in 309 schools.	3,725	1,862	1,862	4,559	1,857	-
Basic Education/ UNICEF	The Basic Education program supports the Ministry of Education in strengthening quality basic education through a three pronged approach: a) capacity enhancement at central, regional, district and school level; b) support pilot interventions for informed policy and planning processes; c) build sustainable systems through Child Friendly Schools (CFS), basic curriculum development and implementation, inclusion of all children, and expand equivalency literacy and Life-Skill Based Education for out of school youth. The Child Friendly Schools initiative develops an innovative model of Eskola Foun in 240 school clusters, and to be extended to all schools by the MoE through training of teachers and school directors, improving classroom, strengthening school management and promoting the role of Parent Teacher Associations in supporting school management.	UNICEF provided technical and financial support to the MoE in implementing interventions aimed at improving access to quality pre-school and basic education. The activities were also designed to improve capacity of MOE officials in various areas, including on positive discipline, child developmental milestones and early childhood development, positive hygiene practices, and engaging parents and communities.	UNICEF Timor-Leste contributed to the approval of the Inclusive Education Policy, draft ECD Policy, an education sector analysis report, analysis of census 2015 data in relation to education, updated education emergency contingency plan, positive discipline integration in national teacher training, re-establishment of Student Councils in schools, providing children in remote areas access to community pre-schools.	1,664	1,664	-	-	-	-

USAID Custom Reform Project/ USAID	To ensure that the Government of Timor-Leste meets global standards for customs operations, one of the pre-conditions for World Trade Organization and Association of Southeast Asian Nations (ASEAN) accession.	The project contributes to the efforts of the Ministry of Finance in pursuing fiscal reform. It helps the ministry reform the custom authority, so that the authority works effectively in collecting revenues for the government. An effective and credible custom authority will boost confidence among the importers and exporters to pursue trading activities in Timor-Leste. Consequently, public revenue would increase to fund public projects. The project also helps Timor-Leste join ASEAN.	• Completed, in conjunction with relevant ministries, several assessments namely ASYCUDA World Functional Review, Clearance of Dutiable Goods in Traveler's Accompanied Baggage, Review of Exemptions, and Risk Management Assessment. • Conducted Dili Port Audit on all goods arriving into Dili Sea Port between October and December 2017. • Provided recommendations on improving Customs facilities at the Tibar Port.	2,153	-	-	2,153	-	-	-
Population Dynamics (Data for Development)/UNFPA	The activities in this multi-year work plan will contribute to strengthening national capacity for using data and evidence to develop, monitor and evaluate national policies and programs in the areas of population dynamics, sexual and reproductive health, youth and gender equality. To achieve this UNFPA will work with General Directorate of Statistics through the support to the planning, implementation, data capture, analysis, publication and dissemination of the 2015 Population and Housing Census as well as to support strengthening institutional and technical capacity of the staff of General Directorate of Statistics by participating in short term training, conference and workshop.	Analysis of the 2015 Census to produce and launch thematic reports on fertility, mortality, marriage, population projections, education, labor force, housing, gender and youth with another report on 'migration, urbanization and population structural change' and a census atlas forthcoming. Groundwork with the Ministry of Justice on improvement of the civil registration system. Development of a set of population projections and demographic estimates for every geographical level. Analysis and of the 2016 DHS. A database and sampling frame developed. Planning for the 2020 census including questionnaire re-design. Ending Violence Against Women Program/ Australia	The Nabilan Ending Violence Against Women program aims to support the Timorese people and their Government to reduce violence and improve the wellbeing of women and children affected by violence. It is organized around the three pillars of Timor-Leste's National Action Plan on Gender-Based Violence: prevention, support services and access to justice. It will employ a range of strategies to support capacity in key ministries and civil society organizations, shift attitudes and behavior which contribute to violence, and strengthen support services and justice outcomes.	Engagement with Ministry of Social Solidarity and Inclusion, Secretary of State for Equality and Inclusion and the Ministry of Health	Nabilan has improved the quality and reach of services -22,000 services such as legal aid, counselling and temporary accommodation provided to vulnerable women and children since 2014. Nabilan also developed the first national study into the prevalence and perpetration of gender-based violence, developed the first accredited social services vocational course and supported the development of National Action Plans for GBV.	632	316	316	-	1,265	1,536	361
Strengthening Community Resilience to Climate-induced disasters in the Dili to Ainaro Road Development Corridor, Timor-Leste.(DARDC-00090905)/ UNDP with GEF funds	The DARDC Project comprises joint investment by Government of Timor-Leste and World Bank to upgrade and strengthen the climate resilience of the road infrastructure linking Dili to capitals of Aileu and Ainaro Districts. The problem that proposed LDCF project seeks to address is that climate change is expected to increase damage to road infrastructure in DARDC resulting from an increased intensity of climate-induced disasters. Damage to road infrastructure is expensive to repair and restricts: i) economic development; ii) market access; iii) access to services such as education and health care; iv) evacuation during natural disasters; v) provision of disaster relief.	Support to protect critical economic infrastructure for sustained human development from climate induced natural hazards (flooding, landslides, wind damage) through better policies, strengthened local DRM institutions and investments in risk reduction measures within the Dili to Ainaro development corridor	Annual Report Completed: DRM Manual has been finalized, 220 Municipal officials trained, disaster online database launched; The top up grant modality has been finalized and launched. 7 projects under the top up grants are currently being implemented; Two nurseries have been established to produce 90,000 seedlings, Fukuoyak training completed, 200 check dams built to protect community infra-structure.	250	-	250	-	-	-	-

5.1.18 Ministry of Justice

The Ministry of Justice is scheduled to benefit from a total of US\$ 740,000 in 2019. Fund disbursement to the Ministry of Justice in the form of grants account for 4% of the total planned in 2019 (or US\$ 30,000 in absolute terms), while 96% of the total planned disbursements will be delivered through technical assistance (US\$ 710,000). The project with the largest scheduled disbursements is the “Consolidating the Democratic Rule of Law and Peace through a strong Justice System in Timor-Leste” with US\$ 596,000 in technical assistance executed by UNDP with funds from KOICA and the Government of Japan.

Project Title supporting MoJ/ DPs	Project description	Support to Ministry	Results achieved so far	19 Plan	19 Grant	19 TA	19 Unsp.	20 plan	21 plan	22 plan
Consolidating the Democratic Rule of Law and Peace through a strong Justice System in Timor-Leste/ UNDP with KOICA and Japan funds	UNDP's Justice System Program (JSP) has focused on supporting the justice sector to develop institutional and human capacity. It has worked with all the key institutions: the Courts, Prosecution, Public Defenders, the Ministry of Justice (including the corrections component) and the Legal Training Centre. Building on the positive results achieved to date, the new project phase (JSP Phase IV) will systematize and improve mechanisms for policy-making, coordination, and strategic planning. The exit strategy will be based on an assessment of resource needs and an agreed, detailed plan on how the institutions will fill them.	Supporting the justice sector to develop institutional and human capacity	The support provided to courts has shown that criminal cases newly registered at four local district courts has increased year by year, total 2,912 cases in 2015 has rose by 11% to 3,227 new cases in 2016. The legal institutions in Timor-Leste, the Justice System Program has been supporting the Legal Judicial Training Center through its magistrate's course and continuing legal education and as of December 2016 Timor-Leste has produced 34 judges, 33 Prosecutors, 31 Public Defenders, 99 Private Lawyers, and 21 notaries. The mobile courts has brought justice closer to community especially vulnerable groups including women and poor people.	596	-	596	-	-	-	-
Child Protection and Participation Programme/ UNICEF	The Child Protection programme strategy aims at steadily strengthening and enhancing children's protective environment in Timor-Leste by focusing on the establishment of two key systems for children: child and family welfare system and justice for children system. The programme targets priority institutions and work at district and suco (village) levels to mobilize community engagement and children's participation. Working with Ministry of Justice, the Juvenile Justice project aims to enhance access to justice for all children in contact with the law (victims,	UNICEF supported to Ministries of Social Solidarity and Justice, the Secretary of State for Youth and Sports (SSYS) , the National Police of Timor-Leste (PNTL) and the National Commission on the Rights of the Child to implement strategies and plans in the area of child and family welfare and relevant directorates, institutions of the Ministry of Justice and the PNTL to strengthen legislative and program interventions in the area of justice for children.	The social welfare system in Timor-Leste was strengthened through capacity building of the social welfare workforce, knowledge and skills of parents on positive parenting through parenting education sessions. In addition the National Youth Action Plan was drafted, outlining concrete actions and investments needed to implement the National Youth Policy, with strong leadership from Government and the participation of a broad range of UN and development partners.	114	-	114	-	-	-	-

6.6 2019 Planned Percentage of Disbursements Towards the SDGs

The data presented in this section was collected via a three-step process:

1. The total amounts of planned disbursement by project were collected.
2. Agencies responsible for reporting the projects into the ATP were asked to designate the estimated percentage of the resources of the project that were being directed to support SDGs. Agencies were limited to designate up to three SDGs.
3. These designated percentages were then applied to the total project resources.

*Funding for projects executed by The People’s Republic of China, Portugal, and Camoes are not included in the analysis as data was not provided. Thus the total funding used for calculations was \$142,315,454.
